SURGICAL OPTICS

Vivinex™ multiSert™

Designed for unmatched control at your fingertips

High user satisfaction amongst surgeons using Vivinex™ multiSert™¹

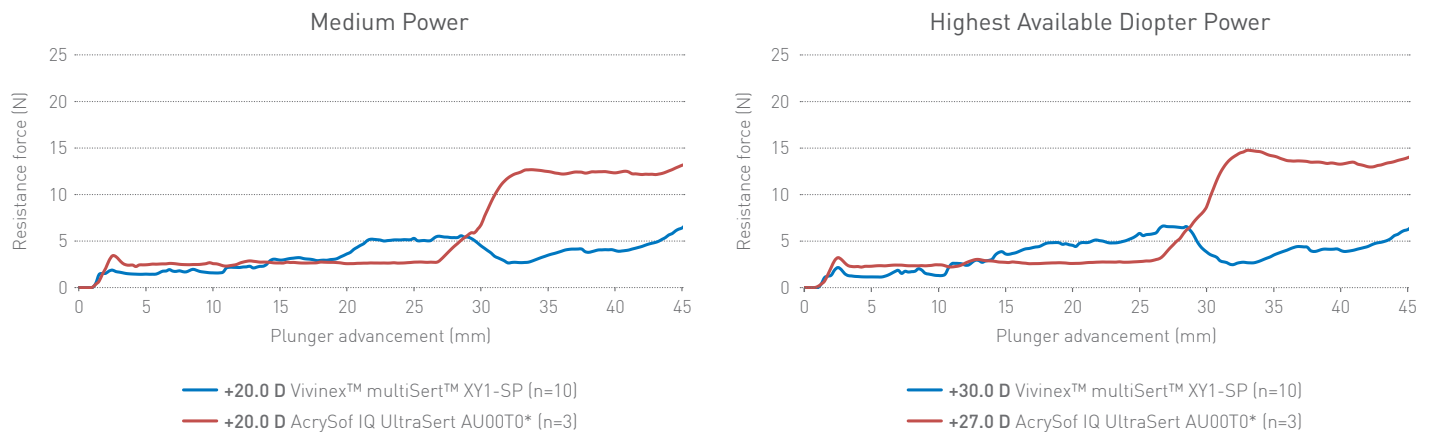

An evaluation with 96 injectors by 14 European surgeons (*in vitro*) and 5 Japanese surgeons (*ex vivo* porcine eye) reported average usability and satisfaction levels between “Good” and “Excellent” for multiple facets of use. The refractive power of the evaluated IOLs was from +6.0 D to +29.0 D.

■ *in vitro* (n=56)
 ■ *ex vivo* (n=40)

multiSert™ has an uniformly low resistance force when delivering the Vivinex™ IOL in push mode, no matter what diopter²

A comparison of resistance force at two different diopters
